The 2004 Turkey Watch Report

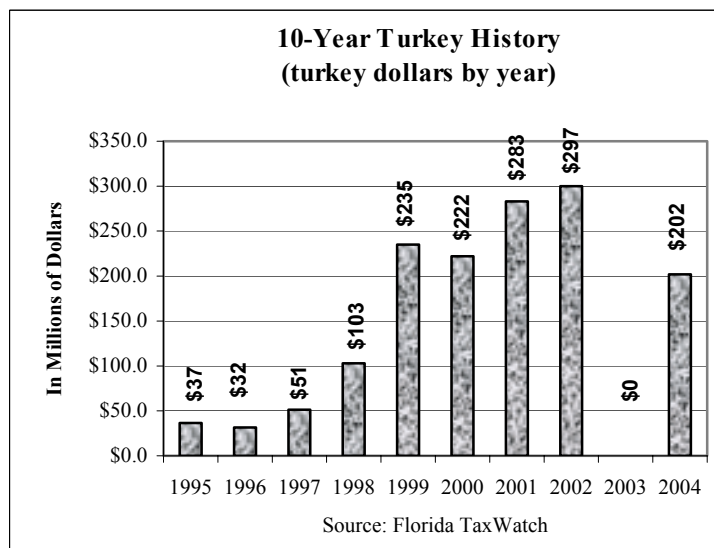

A Multitude of Projects Added to the Florida Budget During the Conference Committee Leads to 227 Turkeys Worth \$202 Million

After taking a year off from budget “turkeys,” the 2004 Florida Legislature earmarked funding for 227 of these appropriations in the new state budget that is now before the Governor. Florida TaxWatch’s annual report on “budget turkeys” highlights \$202 million in projects that are recommended for veto.

The annual turkey report spotlights member projects placed in the budget without proper public review; which circumvent competition and the lawfully established procedures; which benefit a very limited special interest or local area of the state or are low priority items that get funded over higher priority needs. To allow for legislative discretion, any items that were specified and funded in both the House and Senate budgets were not designated as budget turkeys.

Although the amount of turkeys was less than the record-setting period of 1999 to 2002, this flock was the fifth largest we have uncovered. What was remarkable about this year was the large number of items that were added to the budget during the conference committee negotiations. In fact, the vast majority of the items on our list this year are there mainly for that reason.

After the House and Senate pass their budgets, a conference committee is formed to compromise the differences between the two. This is not the time to add projects. Doing so circumvents the established budgeting process and basically lets a few legislators appropriate state funds. This puts the rest of the Legislature in the position of having to vote the whole budget down if it objects to specific

items. Many of these projects are probably worthwhile, but special earmarks limit agency flexibility and discretion and often bypass competitive selection processes.

This year, TaxWatch identified 227 items placed in the budget valued at \$202 million. Of the total appropriated for budget turkeys, \$127.5 million were found in General Revenue and \$74.6 million in trust funds. This year's turkeys cost \$11 for each Florida family and cost every man, woman and child in Florida: \$29.

*That most delicious of all
privileges—spending other
people's money.*

*John Randolph,
Early 19th Century Member of Congress*

What Is A Budget Turkey?

Florida TaxWatch has been producing a turkey list since 1983. As in previous years, it is important to note that the "budget turkey" label does not denote condemnation of a budget item's worthiness. The term merely suggests that, with the state's vast and pressing needs and limited resources, the question must be asked, "Is this the best use of Floridians' state tax dollars?" The priorities of all citizens must be considered. This and previous Turkey Watch reports are not attempts to record only government waste or inefficiency. While in some cases that may be a factor, this report offers an independent assessment about the honesty, integrity and public review of the state's \$58 billion 2004-2005 budget.

Turkeys are added onto the budget during the legislative process, some very late in the session. This maneuver circumvents normal planning and budgeting processes that, by necessity, require close scrutiny by state agencies, the Governor's Office of Policy and Budget, legislative committees, staff and meaningful citizen input. Florida TaxWatch's Turkey Watch criteria allow for a

considerable amount of legislative initiative. Too often, the normal processes are bypassed or given less than full consideration.

Parochial projects may or may not have merit, but such spending can undercut the spirit of true performance-based program budgeting. Moreover, such spending circumvents accountability, disrupts logical program prioritizations and subordinates statewide concerns to the localized needs or desires of exclusive areas of the state.

"Public money ought to be touched with the most scrupulous conscientious of honor. It is not the produce of riches only, but of the hard earnings of labor and poverty."

Florida TaxWatch Budget Turkey Criteria

1. Projects or programs that did not go through a legitimate review process allowing for proper evaluation: agency budget requests, governor's recommended budget or legislative committee hearings.
2. Appropriations that were inserted in the Budget Conference, meaning they did not appear in either the Senate or House final budget.
3. Subsidies to private organizations, councils or committees that can and should obtain funding from private sources.
4. Local government projects benefiting local area residents but lacking significant local funding

support and/or overall benefit to the state as a whole.

5. Appropriations that circumvent competition and mandate that a specific vendor or project receive funding.
6. Low priority projects that get funded over higher priority items.
7. Inappropriate sources and questionable appropriations—*e.g.*, only partially funded with a large annualized cost in subsequent years, funded from inappropriate sources and/or duplicative of existing programs.

To provide for some additional legislative prerogatives, any items that were funded in both the final House and Senate budget were not designated as turkeys.

What Else Could A Turkey Buy?

One of the best arguments for stopping turkeys is the many urgently needed state services that the funds spent on budget turkeys would otherwise purchase. Florida TaxWatch investigated other funding opportunities for the revenue appropriated to this year's turkey crop. To show the magnitude of this spending, \$202 million could be used to purchase the following statewide needs:

- **Build Schools.** \$100 million could build two elementary schools, two middle schools and two high schools.
- **Hire Teachers.** \$50 million could hire 1,241 additional teachers (at a salary of \$40,275).
- **Healthy Kids.** \$52 million could provide the state and federal share for 39,946 children to have health insurance.

BUDGETING WITHOUT DISCIPLINE: A FINAL THOUGHT

Florida voters who place greater importance on projects within their community, at the expense of what are clearly more critical needs of the state majority, must share in the responsibility of the turkey fiasco. Legislators, however well-intentioned and noble when first elected, learn very swiftly that petty parochialism pays off when voters tally the score of the legislative sessions. Those who reward turkey-prone lawmakers with re-election are no less guilty of abuse of the state's trust than are the lawmakers themselves.

This report was researched and written by Kurt Wenner, Sr. Research Analyst; Dr. Janet Herndon, Deborrah Harris and Brea Gelin, Research Analysts; Dr. Michael Fisher and Dave Davis, Sr. Research Analysts; under the direction of Dr. Keith G. Baker, Senior Vice President and Chief Operating Officer; Barney Barnett, Chairman; Dominic M. Calabro, President, Publisher and Editor.
